[For the Dispatch.] The Sanitary Condition of the City. It seems to be almost impossible to impress the city authorities with the importance of keeping our city in a healthy and cleanly condition. They seem to rest perfectly easy with the idea that the topography of the city is such that no fifth can accumulate, and consequently we are in no danger. So thought the citizens of Holly Springs, Grenada, and Chattanooga last year. The former city lies in a beautiful rolling country 625 feet above the sea level, and the latter city 750 feet above the same point. Yet we know what dreadful havoc was Castillow (colored) was before the Police made amongst their residents. Because our beautiful city has always been exempt from selling liquor at No. 702 east Broad street the yellow-fever is no reason it always will be. If we rest calmly upon that fact we do. Accused had been in business at 626 may some day be awakened by the startling news that the 'dreaded scourge is amongst us; then it will be too late to increase our street force. It will be then like "shutting the stable-door when the horse has goze.' I have no doubt the Board of Health are doing all in their power, but with the means that has not heretofore been regarded as at their command they are almost powerless, for, as the president said in your issue of July 21, "the idea of a force of twelve persons-half of whom are boys, the other half generally infirm-being considered competent to clean one hundred miles of The idea is simply preposterous. MANCHESTER AND VICINITY.

A Needed Improvement .- Yesterday morning John Collins was arraigned before the Mayor's Court, charged with being a vagrant. It pelng known at court that John had on former occasions been fed by the city, and in fact had proved to be a general nuisance to our citizens, the Mayor decided to put him to work cleaning away the weeds on the Court-bouse square. He was at once turned over to the proper officer, and began work on this long-needed improvement. In the afternoon he had succeeded in removing all the weeds, &c., and the Square presented an improved appearance. It would be a good plan to treat all such visitors in a similar manner.
